

Dear Parent,

Each year, the state milk program provides students with daily milk for a minimum charge. The state requires that the milk program maintains a separate account for milk program expenses and therefore we ask for a separate payment for milk.

This year, there will be a charge of \$8.00/student for milk (\$5.00 for the K3/K4 program). We will again offer choices of 1% (white) and fat-free (chocolate) milk.

In addition, parents may request that their child/ren receive only white milk. Please complete the milk form and return in on August 30th. Please include a **SEPARATE CHECK** for milk (remember, we must maintain a separate account for this program).

*- Anne T Weise*
